Dreyfus Verdict Creates Intense Indignation at State Capital.

INHALED INSECT POISON

Dr. Callie McGregor Has Singular Experience in Trying to Exterminate Roaches and Other Bugs—Daughters of Confederacy to Meet—Arrangements for Grand Old Virginia Tournament.

(Special to Virginian-Pilot.)

Richmond, Sept. 9.—The news from Rennes this morning that a verdict adverse to Capt. Dreyfus had been rendered by the biased court-martial created intense indignation here, where there is probably not an anti-Dreyfusite to be found.

The Dreyfus Association, of Richmond, which has a considerable membership, will be called to meet shortly to draft resolutions setting forth their indignation at the result of the farcical French trial.

SINGULAR CASE OF POISONING.

One of the most singular cases in the experience of Richmond physicians has just come to light here.

Last Sunday morning Mr. Callie McGregor, who resides at No. 601 West Clay street, decided to try to exterminate some of the roaches and water-bugs, which have proved such a nuisance in many houses. He took what he supposed to be insect powder and scattered a quantity of it on the floor.

Unknown to Mr. McGregor, the powder was rat poison, and was composed for the most part of arsenic. The dry substance impregnated the atmosphere, and was inhaled freely by Mr. McGregor.

He felt no ill-effects, however, until Tuesday morning, when his eyes began to swell. Soon other portions of his body began to enlarge, and in a short time he was forced to take to his bed. His condition rapidly becoming very serious.

His friends, becoming alarmed, sent for Dr. Davis, and the latter, after examination, diagnosed the case as one of chronic arsenic poisoning. He recognized that Mr. McGregor was in a very serious condition, and began to use the most vigorous measures. For three days and a like number of nights the physician scarcely left his patient's bedside.

His efforts were crowned with success. Mr. McGregor was able to leave his couch to-day, and his recovery now, it is expected, will be rapid.

DAUGHTERS OF CONFEDERACY.

The Daughters of the Confederacy will hold a meeting here next week to prepare for the grand celebration to be held here by them in November. Delegates are expected from all over the South.

A PROSPECTIVE TOURNAMENT.

Arrangements are being rapidly made for the grand Old Virginia Tournament which is to be held next month. The headquarters of the Tournament and Race Association is a busy place. The various secretaries and clerks are doing a large amount of work and from indications, the affair will be a big success, and a large crowd of visitors are expected in Richmond.

Captain J. W. Talley, of Buckingham county, is in the city, stopping at New Ford's. Captain Talley has always been very fond of tournament riding, and was the first president of the Virginia Tournament Association. He rode in tournaments before, during and after the war, and has placed the crown of youth and beauty upon the brow of many a fair Virginia girl. He is deeply interested in the revival of the sport in Virginia, and will be at the tournament here next month under the auspices of the Old Dominion Tournament and Fair Association.

FORMER NORFOLK SOLDIER.

Adjutant General Floyd, of South Carolina, visited the adjutant's office this morning. General Floyd is on his way home from Washington, where he has been on business in connection with his department. He is an old Virginian and was a member of the Norfolk Blues during the Civil War. He lost his arm at Charleston. General Floyd has received much honor from the people of South Carolina. He represented his district in Congress some years ago.

BREVITIES.

Adjutant General Nalle's little girl, who has been quite ill for some days at her home, in Culpeper, was reported better in a letter to the General last night. She had been suffering as the result of a jump from a point about ten feet from the ground while playing several days ago.

Secretary Lawless continues to improve, and will in all probability be able to go out shortly.

DROWNED IN SURF.

WILLIAM HARVIE WADE, RICHMOND, MAN, MEETS DEATH IN WAVES.

(Special to Virginian-Pilot.)

Richmond, Va., Sept. 9.—William Harvie Wade, a well known mechanical engineer, was drowned in the surf at Wrightsville Beach, N. C., this morning. He was the guest of the Messrs. McKee, proprietors of the Wilmington Cotton Mill, at his cottage at the beach. He was in the surf bathing with them at the time, and was swept out to sea by a strong current in spite of the most heroic efforts on the part of the Messrs. McKee and Mr. H. M. McKee, who came to their assistance. Wade's body was cast up on the beach six hours later within 75 feet of the place he was drowned. Wade was 33 years old, and formerly lived in this city. He recently spent three years in Europe in the employ of various construction companies. He was a man of means, and had just secured a controlling interest in the Wilmington gas plant. He was a brother of Dr. Wade, of Richmond, and has a sister residing in New York. The remains will be brought here for burial.

STONED A TRAIN.

Charged with stoning a Norfolk and Western passenger train, Crossy Jones, 17 years old, was today arrested by the Norfolk Branch at Smithfield, Va. A few nights ago Jones got mad with Conductor Farrar at Windsor because he couldn't ride as blind baggage. When the train pulled away Jones threw a rock through a window at Captain Farrar. The train was stopped and the crew gave Jones a chase across the way. He left them.

Hurricane Branch had a telegram from Detective Baldwin, of Roanoke, authorizing Jones' arrest. The fugitive was traced to Suffolk, Norfolk, Newport News, back to Norfolk, Suffolk and Smithfield. Jones denies the charge. He may be sent to the penitentiary if found guilty. Judge J. H. Hollister will conduct the preliminary hearing next Tuesday at Windsor.

VIRGINIA DOCTORS.

MEDICAL SOCIETY TO MEET IN RICHMOND.

An important event in the medical world will be the thirtieth annual session of the Medical Society of Virginia, which will be held in Richmond, October 24th next. The place selected for the meetings is the roof garden of the Jefferson Hotel.

This organization has been in operation in Virginia for a number of years, and from a small society of only ninety-two charter members, it has grown to such a rate that now its membership is something over a thousand.

Of the original ninety-two physicians who met in a small hall on Main street in 1870 for the organization of the Virginia Medical Society, only twenty-four have been continuous members, paying dues since the first meeting.

Among the charter members were Dr. Landon B. Edwards and Dr. Thomas J. Riddell, who took a most active part, and were the most faithful workers for the society in the years of its infancy, and it is largely due to their untiring efforts that the society is what it is to-day.

Dr. Edwards is now the secretary of the Virginia Medical Society, and is a most efficient officer. Dr. Riddell has occupied some prominent positions of trust, and for eight consecutive years was chairman of one of the standing committees.

Dr. Edwards has issued a card to the members of the society, setting forth the business to be transacted at the meeting in October, and requesting that all members who have papers to be read before the society will send them in before the 20th of this month, so that the program can be printed by the first of October.

TOPICS.

Among the subjects to be discussed by the society are: "How Best to Note the Health in Every Way," of Our Children in the Public Schools," by Dr. J. H. Neff, of Harrisonburg, as lecturer.

Dr. J. C. Palmer, of Richmond, will open the discussion on "The Care of the Eyes of School Children."

Dr. Hugh McGuire, of Alexandria, will speak on "Hygiene of the School Room."

The meeting is expected to be a most interesting one, largely attended, and many new names will be added to the rolls.

CHARTER MEMBERS.

The charter members who are now living are as follows: Benjamin B. Eckford, Lynchburg; John H. Claiborne, Petersburg; Landon B. Edwards, Richmond; John R. Glindersleeve, Tazewell Court House; R. S. Hamilton, Staunton; L. E. Harvie, Danville; Frederick Horner, Jr., Fauquier county; M. L. James, Richmond; D. W. Lassiter, Petersburg; W. Augustus Lee, Richmond; J. B. McCaw, Richmond; Hunter McGuire, Richmond; E. J. Mosely, Richmond; Thomas J. Riddell, Richmond; H. Cabell Tabb, Richmond; William H. Taylor, Richmond; Charles N. Tompkins, Richmond; John N. Upshur, Richmond; J. Spottwood Welford, Richmond; Joseph H. White, Richmond; C. M. Stiggleman, Plant Court House; T. Jane Taylor, Brunswick; M. M. Walker, Oregon; George W. West, Washington, D. C.

HORSES AND HORSEMEN

Good Horses Only Have Sold Well in Norfolk in the Past Week.

One of the Largest Gravel Stones on Record Found at Berkley—International Horse Show at the Paris Exposition.

The local horse market has been satisfactory for the past week. The volume of business has been moderate. The fair for this season of the year. Good horses continue to bring fair prices, while ordinary horses are very cheap. Mules are in some demand at the same prices that have ruled for several weeks past.

Among the out-of-town buyers who have visited this market during the past week was Mr. Smoak, of the firm of Smoak & McCrory, of Winston, N. C., who bought a car load of big work horses and a few mules. Mr. W. B. Lewis, of Milton, N. C., also visited Norfolk and bought a car load, among them some very good horses. Mr. N. G. Norfleet, of Suffolk, dropped down and bought a few of the best general purpose horses obtainable.

The date of the meeting of the American Turf Congress, at Chicago, has been changed to September 20 instead of September 30, as previously announced.

A meeting of the American Association of Breeders of Thoroughbred Horses was held at the Hoffman House, New York, August 25. In the language of Gen. W. H. Jackson, of the Belle Meade Farm, Tennessee, who is president of the organization, the purpose of the body is "to guard with the zealous care our great industry." The organization has a membership of fifty, and includes the owners of all the principal stock farms in the United States and Canada.

A permanent organization of the association was perfected, with W. H. Jackson as president; E. P. Clay, of Lexington, Ky., first vice-president; O. Appleby, of Shrewsbury, N. J., vice-president; and O. H. Chenault, of Lexington, Ky., as secretary and treasurer. A constitution and by-laws were adopted, which declare that the word "thoroughbred" shall apply strictly to running horses.

Letters are being received by Norfolk horse dealers from various Western shippers who are preparing to send horses to this market in the near future. These are coming from Illinois, Indiana and Iowa. One party in Montana wishes to send to this market four or five car loads of range horses.

Que Allen is now the fastest trotter, by the records, in Europe. He made 2:09 1/4 in Baden, August 13, displacing the 2:10 1/5 of Colonel Kuser, made some weeks ago. This performance, which gives the son of Champion Medium the European record, took place in the race for the championship of Europe, a purse \$3,500, trotted over the Baden track. The starters were Que Allen, Colonel Kuser, Miss Sidney, Roadbill, Senator A., Pastoral, George A. and Athanasio. The race was mile heats three-in-five.

Budd Doble has returned to his first love. He has extensive stables at the Girty track, California, and is training a big string of twenty-eight horses, 3, 4 and 5-year-olds, principally the pet of Cupid, Aptos, Wilkes and Dexter Prince. Mr. Doble does not propose to race his stable, but to get them into perfect condition for the market, and then consign them to one of the Madison Square Garden winter sales.

Joe Patchen, John R. Gentry and Searchlight will race for a purse of \$3,000 at Sioux City, Iowa, at the meeting of September 12 to 16.

They are making the necessary preparations at New Orleans for steppes chasing at the next winter meeting.

Probably one of the largest gravel stones ever found in an equine was found a few days ago in the bladder of a dead horse at the fertilizer works of Mr. Whitley, at Berkley, where the animal had been brought to be cut up and disposed of. In the process of cutting the animal up the workmen found an enormous gravel stone almost as round as a ball. It is eleven inches in diameter, smooth as glass, dark brown in color, and weighs one pound and six ounces. Mr. Whitley has presented the stone to Dr. F. E. White, the veterinarian.

"Snapper" B. H. Garrison, who some years ago was one of the most prominent jockeys in the country on the flat, has announced his intention of becoming this fall a hurdle and steeplechase rider. He has grown too heavy to reduce for flat racing, but thinks he can come within the limit of riding the jumpers without inconvenience.

Mr. A. L. McClellan has some very promising youngsters at his Black Forest farm. Among them is a Direct or stud, by Director, dam by Red Wilkes, and two Red Wilkes allies—one out of a Mambrino Patchen mare, Frankie Lyons, and the other out of Little M., by William L., and he by Red Wilkes. One of the most attractive features of the Paris Exposition in 1900 will be the great International Horse Show. It has been decided, according to the programme issued by the French authorities, that the International Horse Show will open on Sunday, September

2, 1900, and close on Monday, September 10, of the same year. The prize list is a very liberal one, the amount of added money being \$110,000, in addition to a number of medals, and, as there are a great many classes for foreign breeds, it may be taken for granted that a large entry will be obtained from the United States and England. The show is divided into seven sections, the first being for thoroughbreds, purebred Arabs and Anglo-Arabs, with over \$12,000 in prizes, the first prize for thoroughbred stallions being \$1,200, and for thoroughbred mares \$800. The second section is for Barbs, the third for trotters of French, American and Russian breeds, the fourth for half-breeds—including classes for the English hackney and Cleveland—the fifth for ponies, the sixth for cart horses and the seventh for donkeys. There will also be a number of champion prizes, those for thoroughbreds being \$1,200 and \$750 in value, and the show will be confined to stallions and broodmares, the date of entry being June 1st, 1900. Officials of the United States Commission at the New York office, 120 Broadway, say that full particulars can be obtained by addressing the French Minister of Agriculture of the Paris Exposition, at Paris, France.

When Haws purchased Joe Patchen he agreed to fill Mark's western dates to race at Oklahoma City, O. T., September 21, and Wichita, Kan., September 27-28.

The fall meeting of the Gentlemen's Driving Park, Baltimore, Md., will be held September 19th to 22d. There will be twelve events and \$2,000 in purses. Entries will close September 12th, records taken that day; no bar. Mr. J. A. Ellis is secretary.

A liberal use of salt rendered the track at Charter Oak, at the recent races, free from dust. During the recent race meeting at Kittanning, Pa., the roads leading to the fair grounds were sprinkled with crude oil to lay the dust. The use of crude oil for this purpose is increasing.

South Wales informed the Colonial Office that 180 of the commissioned officers and men of the defense force of New-South Wales had volunteered their services if wanted for South Africa.

The following telegram in reply was received from Mr. Chamberlain: "Her Majesty's government highly appreciates the loyal and patriotic spirit shown by those who have offered their services. The proposal has been placed on record at the War Office. Full consideration will be given to the offer should necessity arise for a reinforcement of the troops now in South Africa."

San Francisco, Sept. 9.—The United States transport Sheridan was docked to-day and the Thirteenth Minnesota and the South Dakota volunteers were landed. The soldiers were given a fine reception. The streets along the line of march to the Presidio were thronged with people who cheered the soldiers with flowers. The men will go into camp at the Presidio and will be mustered out in a few weeks. The stockholders of the Raleigh and Gaston Railway voted on Wednesday in favor of consolidation of it with other roads in the Seaboard Railway system.

Mrs. Morris' Letter to EVERY WIFE AND MOTHER.

[LETTER TO MRS. PINKHAM, No. 14,363]

"I have taken eight bottles of Lydia E. Pinkham's Vegetable Compound with gratifying results. I had been married four years and had two children. I was all run down, had falling of womb with all its distressing symptoms. I had doctored with a good physician, but I derived very little good from his treatment. After taking a few bottles of your medicine, I was able to do my work and nurse my seven-months-old babe. I recommend your medicine to every wife and mother. Had I time, I could write much more in its praise. I bid you God's speed in your good work."—Mrs. L. A. MORRIS, WELAKA, PUTNAM CO., FLA.

"DEAR MRS. PINKHAM—When I commenced the use of your remedies I was very bad off. Every two weeks I was troubled with flowing spells which made me very weak. I had two of the best doctors, but they did not seem to help me.

"They said my trouble was caused from weakness and was nothing to worry about. I felt tired all the time; had no ambition. I was growing worse all the time until I began the use of Lydia E. Pinkham's Vegetable Compound. I am now able to help about the house, and am much improved in health."—Mrs. A. WALKER, CALICOON DEPOT, N. Y.
